RE: Suncor Energy Inc. (Suncor) - Proposed Forty Mile Solar Power Project (Project)

Dear community member:

We are pleased to share additional information about the proposed Forty Mile Solar Power Project located southeast of the town of Bow Island in the county of Forty Mile No. 8.

On February 7, 2022, the Project received a Renewable Energy Referral Report (Referral Report) from Alberta Environment and Parks – Fish and Wildlife Stewardship (AEP-FWS). The Referral Report states that risk to wildlife and wildlife habitat is “low.” We are pleased that the AEP-FWS shares our view.

The Referral Report is a required component of the Alberta Utilities Commission (AUC) solar power plant application. Suncor is working towards submission of the AUC application, and the anticipated Project schedule is as follows:

Activity	Date
Consultation	Early 2021 – Early 2022
AUC application	Early 2022
Anticipated AUC approval	Fall 2022
Site mobilization (construction start)	Early 2023
Construction completion and full commercial operation	Late 2024

Although Suncor anticipates the Project being fully constructed and in operation by late 2024, Suncor plans to request a construction completion date from the AUC for late 2026 to accommodate any unforeseen circumstances that may delay construction start.

Since Suncor’s last round of consultation, there have been no changes to the proposed layout.

Thank you for taking the time to review this information. If you have questions or concerns, please contact us at fortymile@suncor.com or at 1-866-344-0178 (extension 2) by March 24, 2022 to allow us to provide further information prior to our AUC filing. Our project team is available to meet with you via phone, video chat or in person at your convenience.

Yours truly,

**Forty Mile Granlea Wind GP Inc.
 On behalf of Forty Mile Granlea Wind Limited Partnership**
