Subject: Mercaptan Odor – odoriferous for natural gas and propane

Date : August 16th, 2021

Please note that because of work that will take place on our Mercaptan drum, the product that adds a scent to products such as natural gas and propane, it is possible that increased odors could be perceived from time to time.

These activities will occur on August 17th, 2020. This operation could last a few days.

The work will be carried out in such a way as to minimize inconvenience to our neighbors. These odors pose no risk to your health and safety.

We thank you for your understanding.

For all information, you can reach our environmental advisors at 514-640-8000
