

Subject: Notice of Equipment Maintenance Work - Spring 2022

Please be advised that we will be conducting scheduled maintenance outages beginning April 1 and lasting approximately ten weeks. This work is part of our regular maintenance and repair plan for the refinery to ensure safe and reliable operation.

These equipment shutdowns will involve several workers from various trades. As a result, you may experience increased traffic throughout the work. During this period, the flare will be used more frequently than usual.

At Suncor, we value our relationships with our neighbors and the community and will strive to minimize the impact of this work.

Thank you for your understanding.

For all information, you can reach our environmental advisors at 514-640-8000

Important note:

All our notices to the community are posted on the website of the Association Industrielle de l'Est de Montréal (AIEM). You may register on the AIEM website at www.aiem.qc.ca if you want to automatically receive the email notifications from the member industries.

“This notice stems from our social commitment as a member of the AIEM, and its aim is to inform members of the neighbouring community about any incidents likely to have an impact outside our site.”
