

**Subject: Planned equipment maintenance**

Date: October 13, 2020

Please note that the Suncor Montreal Sulphur Plant will be proceeding with planned equipment maintenance. The work will begin on October 13<sup>th</sup>. During the first few days of activities, it is possible that smoke will be visible on one of our chimney stacks and that odours may be perceived. Be assured that this poses no risk to your health and safety and that we will do what is needed to reduce odor and smoke emissions.

These activities are part of our plant's regular maintenance and repair plan, intended to ensure the reliability of our operations

In keeping with our commitment to the community, the work will be carried out in such a way as to minimize any nuisance and impact to the community surrounding our facility.

Thank you for understanding and patience.

For further information, you may contact our Environment, Health and Safety group at 514-645-1636.
