

Subject: Planned shutdown - Equipment maintenance

Date: September 10, 2021

Please note we will be proceeding with planned shutdown for equipment maintenance on September 15th and for approximately three weeks. These activities are part of our sulphur plant regular maintenance plan, intended to ensure the reliability of our operations.

In keeping with our commitment to the community, the work will be carried out in such a way as to minimize any nuisance and impact to the community surrounding our facility.

Thank you for understanding and patience.
